

Motion: The Hunt Club Community Association recognizes the need to increase density on existing streets. It is needed to improve energy efficiency, to preserve farmland and to house an increasing population. The Hunt Club Community Association opposes the recommendations of the Ontario Housing Affordability Task Force but supports Ottawa's New Official Plan

### Argument

I have to tell my neighbours. The Housing Affordability Task Force would take away their rights as property owners but they don't know anything about it. I have lived in my house for 36 years and I know my neighbours. I have to tell them. I have drawn up a flyer, I could pass out door-to-door but I need the support of the Community Association.

Peter Brimacombe  
President, Hunt Club Community Association

2nd Motion: To spend \$200 for printing the door-to-door flyers about the Housing Affordability Task Force.
