

## **Proposed Motion on Housing Affordability**

We had a zoom meeting June 21. In the meeting a map was presented with a specific proposal for our area. It would allow 2 units to be built on 1 lot. I support it. I would be willing to present the up-zoning at a meeting of home owners but they don't know about it. We made a major effort to publicize the Housing Affordability Task Force but the Ontario Government buried it. So what we have right now is a specific proposal that directly impacts home owners. We need to tell them. They will want to know the position of the Community Association.

Motion: The Hunt Club Community Association supports in principle, up-zoning the present R1 zoning. The up-zoning would allow 2 units to be built on 1 lot.

Peter Brimacombe  
President, Hunt Club Community Association
